

HOW TO MEASURE YOUR WRIST (OR K9'S NECK SIZE)

Here is how you can get an accurate measurement. Remember, I need to know your wrist size — not bracelet size. For your K9, we need neck size -- not collar size.

Do not add extra space to compensate for a comfortable fit! I take this into consideration when making your item to ensure that it will fit properly. If you add to what the actual measurement indicates, you will have a bracelet that is most likely too big/loose for your liking.

First, you'll need a ruler, a pen or pencil and a strip of paper about a half inch wide.

Wrap the piece of paper lightly around your wrist (or K9's neck). Mark the piece of paper right where it meets the starting point.

Then, measure that length on a ruler.
Now you know what size to order.

The above steps are the best way to ensure I get an accurate size so you receive a bracelet or dog collar that fits.

**IMPORTANT: All items are custom made to order just for you.
So be sure to double-check your measurement.**
